15/7/07 Bird Box Survey

1. Hole approx 5 cm – evidence of enlargement. Side and front of box split. Nest material – moss at bottom and beech twigs with leaves filling rest of box. Woodlice. Approx 3m from ground level. *A new box in this beech clump could be fitted after the building works are completed.*
2. Hole approx 2.5cm – box approx 2/3 full of moss. Unable to unscrew lid and remove next material. Apprx 3 m from ground level.
3. Multi-box ? 6no holes approx 2cm wide, 1 nr hole approx 6 cm wide. Approx 4m from ground level. (Unable to reach with ladder). *This box is attached to Hinton House (to be sold next year).*
4. Hole approx 2 cm – Some mud present but looked like box had been cleared out by others. Approx 1.8m above ground level.
5. Bat box approx 5m above ground level. *Both box 4 and 5 will be included in the grounds sold with Hinton House.*

Alternative box locations in the part of Hinton House retained by the school need to be found.
